

National Health Expenditure Savings - Telehealth

**Actuarial
Research
Corporation**

This study estimates the savings to Medicare, Medicaid, private health insurance (PHI) and out-of-pocket (OOP) based on expanding coverage for telehealth services.

In summary, projected savings to Medicare total \$1.8 billion over the 10-year period (2017-2026) and projected savings to Medicaid, PHI and OOP total \$0.9 billion, \$3.4 billion, and \$1.3 billion respectively.
